Statement by the Management

Today, the Management has discussed and approved the annual report of PMM Global II K/S for the financial year 1 October 2023 - 30 September 2024.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 30 September 2024 and of the results of the Company's operations for the financial year 1 October 2023 - 30 September 2024.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 19 December 2024

Management, Komplementarselskabet BMK 3 ApS:

.....
Mads Rude

.....
Mads Peter Grønkjær

Independent auditor's report

To the limited partners of PMM Global II K/S

Opinion

We have audited the financial statements of PMM Global II K/S for the financial year 1 October 2023 - 30 September 2024, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 30 September 2024 and of the results of the Company's operations for the financial year 1 October 2023 - 30 September 2024 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Independent auditor's report

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Business review

PMM Global II K/S' business concept is investment in and management of indirect investments in foreign property via international operating partners.

Long-term return expectations

The Fund is projected to generate an attractive net internal rate of return (IRR) of between 9-10% over its lifetime.

Recognition and measurement uncertainties

Investments in associates and property investments are measured at fair value. The measurement includes accounting estimates and is, therefore, subject to uncertainty.

Initiation of liquidation of the Fund

The financial year 2023/24 has been one of continued uncertainty on the back of geopolitical issues around the world and therefore limited transactional activity. These conditions have impacted performance of the Fund, although the number of remaining investments are limited and hence the impact of the overall Fund performance has been relatively limited.

Since the PMM Global II K/S during the financial year has come to the end of its life including prolongation options the Manager proposed the investors to enter an orderly phase of liquidation. The investors have approved and PATRIZIA Global Partners A/S has been appointed the liquidator of the Fund.

For the remaining three investments holding six assets the liquidator will be pursuing exit options in the best interest of the investors. We stay in close contact with our operating partners to find possible routes for liquidating the remaining holdings, although with no defined pressure to sell.

Financing

In the financial year, the investors in the Company have not made capital injections (cash calls), while the investors have not received any exit distributions.

The limited partners' committed capital totaled EUR 200.4 million. Undrawn capital amounted to EUR 22.9 million. There is not assessed to be any risk in connection with payment of the undrawn commitment.

Management's review

Company

In the financial year 2023/24, the Company generated an operating profit of EUR -6.343 thousand. Profit after foreign exchange adjustments, financial income and financial expenses was EUR -6.811 thousand.

Investments

The Fund originally committed to fifteen different investments, but at the end of the financial year only three of the investments still holds underlying properties summing to a total 6.

Note: the above-mentioned percentages refer to PMM Global II K/S' ownership shares in each of the investments. The country / region specification refers to the location of the assets.

*The Fund has, as consequence of the ownership structure, characteristics and contractual agreement of the investment, no daily controlling influence on the investment, hence no consolidation for the Group is required. Realised = All properties are sold, but liquidation reserves may be outstanding.

Management's review

Financial risks and use of financial instruments

Operating risks

The Fund's most significant operating risks relate to property market developments and general economic risks. During the investment period, the Fund mitigated the risks by engaging in diversified investments in the European, American and Asian markets.

Financial risks

Apart from liabilities relating to operating activities and trading activities, PMM Global II K/S has no debt, and investments are not leveraged. For each of the foreign property investments, no investments have been made in investments with leverage - the proportion between liabilities and assets - exceeding 70%. The expected leverage total for all property investments is not to exceed an average of 60% at the end of the investment period or when the last investment has been completed. The current leverage in the investments made in foreign property investments amounts to 46%. Accordingly, the financial risk is assessed as moderate.

Foreign exchange risks

The Fund makes investments in foreign property investments in foreign currency. No hedging of foreign currency risks on long-term investments is made. At their own discretion, the Fund's investors may decide to hedge the underlying risk on an investment.

Knowledge resources

The Fund makes investments based on an overall assessment of potential property investments using a systematised selection method involving external consultants, when necessary. When selecting specific assets, the personal knowledge and competencies of the partners are decisive. Consequently, the Fund has ensured strong alignment of the partners through financial incentives.

Environmental matters

The Fund's operations have no direct environmental impact regarding pollution.

Research and development activities

During the financial year, the Fund had no research and development activities, and none are expected in the coming financial year.

Events after the balance sheet date

No events materially affecting the Company's financial position have occurred subsequent to the financial year-end.

At the balance sheet date, allocated carried interest amounted to approx. EUR 100 thousand. In case of liquidation of the Fund, the amount would be redistributed between A and B shares at the balance sheet date. Carried interest will only be relevant in case it is earned over the total lifetime of the Fund.

Financial statements 1 October 2023 - 30 September 2024

Notes to the financial statements

1 Accounting policies

The annual report of PMM Global II K/S has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to reporting class B entities and elective choice of certain provisions applying to reporting class C entities with the adjustments following the legal form and operating activities of the Fund.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Basis of recognition and measurement

All income in relation to the financial year is recognised in the income statement as earned. Negative value adjustments in respect of investments in foreign property investments are also recognised in the income statement.

Equally, costs incurred to generate the year's earnings are recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the Fund and the value of the asset can be reliably measured.

Liabilities are recognised in the balance sheet when an outflow of economic benefits from the Fund is probable and when the liability can be reliably measured.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described below. In recognising and measuring assets and liabilities, expected losses and risks occurring prior to the presentation of the annual report that evidence conditions existing at the balance sheet date are taken into account.

Reporting currency

The financial statements are presented in euros (EUR), as the Company's most significant transactions are settled in EUR.

Foreign currency translation

EUR is used as the functional currency. Transactions denominated in other currencies than EUR are considered transactions denominated in foreign currencies.

On initial recognition, investments in property investments are translated to EUR at the exchange rates at the transaction date. Subsequent fair value adjustments of investments in property investments are recognised in the income statement at the same historical exchange rate to the effect that exchange rate adjustments do not affect the operating profit. Differences arising between the exchange rate at the balance sheet date and the historical exchange rate are recognised in the income statement as financial items. Financial items are specified in the note regarding financial income and expenses on investments in foreign property investments and other items.

Receivables, payables and other monetary items denominated in foreign currencies are translated to EUR at the exchange rate or forward price at the balance sheet date. The difference between the exchange rates at the balance sheet date and at the date at which the receivable or payable arose or the exchange rate in the latest annual report is recognised in the income statement as financial income or expenses.

Investments in foreign property investments are translated at the exchange rate at the balance sheet date.

Financial statements 1 October 2023 - 30 September 2024

Notes to the financial statements

1 Accounting policies (continued)

Income statement

Net operating income from properties

In the income statement, net operating income received from properties translated at the weighted historical exchange rates at the transaction date is recognised as income.

Other operating income

In the income statement, fair value adjustment of properties and liabilities translated at the weighted historical exchange rates at the transaction date for cash calls are recognised as income.

Value adjustments due to changes in exchange rates are recognised as financial income or expenses.

Administrative expenses

Administrative expenses comprise expenses for management fee to PATRIZIA Global Partners A/S, transaction costs in connection with investments, remuneration to the general partner and audit fee.

The Fund has entered into a management agreement regarding the Fund's activities. A fixed management fee is paid.

Financial income and expenses

Financial income and expenses comprise foreign exchange adjustments of investments in foreign property investments, other realised and unrealised foreign exchange adjustments and interest.

Tax

PMM Global II K/S is not a separate entity subject to taxation. The tax liability in respect of the Fund's earnings is incumbent on the individual investors of the Fund. For this reason, no tax is calculated on the Fund's earnings, and withholding of foreign tax on dividends from property investments is charged directly to the Fund's investors.

Balance sheet

Investments

Investments in foreign property investments

On initial recognition, investments in property investments are determined at the exchange rates at the transaction date and are subsequently measured at fair value translated at the exchange rate at the balance sheet date. The fair value is determined by each fund based on the fair value of the underlying properties. Liabilities in investments in property investments are measured at fair value.

The fair value measurement is based on recognised valuation methods on the basis of unobservable market information (fair value hierarchy 3).

Investment commitments where cash calls have not been made at the balance sheet date are disclosed under contingent liabilities in the notes. Received dividends from property investments are deducted from the value of the investments.

Financial statements 1 October 2023 - 30 September 2024

Notes to the financial statements

1 Accounting policies (continued)

Receivables

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables.

Receivables are recognised in the balance sheet at amortised cost, which is equivalent to nominal value less write-down for bad debt losses. Write-downs are made for bad debt losses based on an individual assessment of receivables.

Receivables from limited partners regarding cash calls receivable, etc. are recognised at nominal value.

Cash

Cash comprise of cash and short term securities which are readily convertible into cash and subject only to minor risks of changes in value.

Equity

Revaluation reserve

Investments by limited partners are recognised when cash calls are made. Investment commitments where cash calls have not been made at the balance sheet date are disclosed in the notes.

The revaluation reserve is reduced by the depreciation charges relating to the revaluation.

Liabilities

The Company has chosen IAS 39 as interpretation for liabilities.

Liabilities (current and non-current) are included when the Fund, as a consequence of an event occurring no later than on the balance sheet date, has a legal or constructive obligation, and an outflow of economic benefits from the Fund to settle the obligation is probable. Investment commitments where cash calls have not been made at the balance sheet date are disclosed in the notes.

Other liabilities are measured at net realisable value.

Financial ratios

Financial ratios are calculated in accordance with the Danish Finance Society's guidelines.

Financial statements 1 October 2023 - 30 September 2024

Notes to the financial statements

2 Recognition and measurement uncertainties

The determination of the carrying amount of property investments and liabilities requires judgements, estimates and assumptions concerning future events.

The estimates and assumptions made are based on fair value calculations from property investments, historical experiences and other factors assessed by Management to be reliable in the circumstances, but which by nature are associated with uncertainty and unpredictability.

The assumptions made may prove incomplete or inaccurate, and unexpected events or circumstances may arise. Furthermore, the Fund is subject to risks and uncertainties, which may lead to actual results differing from the estimates. Particular risks for PMM Global II K/S are mentioned in the Management's review.

It may be necessary to change previously made estimates as a consequence of changes in the circumstances on which the previous estimates were based or due to new knowledge or subsequent events.

Estimates essential to the financial reporting may for example comprise determination of the value of the underlying investments in foreign property investments. Because of the measurement principles used, the calculation of fair value will be subject to uncertainty.

3 Staff costs

The Partnership has no employees.

The Limited Partnership is managed by the general partner. Without limiting the responsibility of the general partner, the general partner have authorised PATRIZIA Global Partners A/S to conduct day-to-day operations. The general partner receives a fee of EUR 27 thousand for the general partner role.

Savanna Real Estate Fund IIA	USA	3.9%	2,115	-30,564

On initial recognition, property investments are measured at cost translated at the exchange rates at the transaction date. Subsequently property investments are measured at fair value translated at the exchange rate at the balance sheet date. The fair value is determined based on the fair value of the net assets in the investment comprising underlying properties and related liabilities.

PMM Global II K/S' investments are not quoted on an active market. The investments will generally be classified as Level 3 in the fair value hierarchy. The valuation models applied for assets within the underlying investments will typically be based on (i) discounted cash flow analysis; (ii) direct capitalisation method; and/or (iii) comparable sales method. The investments reflect its real estate equity investments net of investment level financing. Increases or decreases in any of the assumptions in isolation would result in a lower or higher fair value measurement.

Since there is no liquid market for real estate or real estate related investments the market price for such investments may not be readily ascertainable. As a result, amounts ultimately realised by the investments may differ from the fair value presented and the difference could be material.

The review of the valuation process is performed by the management of PATRIZIA Global Partners A/S. PATRIZIA Global Partners A/S considers the valuation techniques and inputs used in valuing the investments as part of its due diligence prior to investing to ensure they are reasonable and appropriate.

PATRIZIA Global Partners A/S bases their ongoing review of the valuation process on the information reported from the real estate investments in their annual financial statements and quarterly reports. In PATRIZIA Global Partners A/S' review of the valuation process, the obtained reported information is compared to what is budgeted or expected by the management of PATRIZIA Global Partners A/S and, if the information is not in accordance with what is expected, the management engages in a dialog with the operating partners of the investments in order to clarify any irregularities. At least once every year, PATRIZIA Global Partners A/S ensures that an external valuation or satisfactory documentation for the fair market valuation of all the assets in the Fund is carried out.

The following table shows information about the by the real estate funds used unobservable inputs related to the fair value measurement at 30 September 2024 as per their quarterly reports:

This document is digitally signed using **Penneo.com**. The signed data are validated by the computed hash value of the original document. All cryptographic evidence is embedded within this PDF for future validation.

The document is sealed with a Qualified Electronic Seal using a certificate and timestamp from a Qualified Trust Service Provider.

How to verify the integrity of this document

When you open the document in Adobe Reader, you should see that the document is certified by **Penneo A/S**. This proves that the contents of the document have not been modified since the time of signing. Evidence of the individual signers' digital signatures is attached to the document.

You can verify the cryptographic evidence using the Penneo validator, <https://penneo.com/validator>, or other signature validation tools.
