Statement by Management

The Board of Directors and the Executive Board have today discussed and approved the annual report of Prolog Development Center Holding A/S for the financial year 1 May 2023 – 30 April 2024.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 30 April 2024 and of the results of their operations and consolidated cash flows for the financial year 1 May 2023 – 30 April 2024.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Prolog Development Center Holding A/S

Conclusion

We have audited the consolidated financial statements and the parent company financial statements of Prolog Development Center Holding A/S for the financial year 1 May 2023 –30 April 2024, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 30 April 2023 and of the results of the Group's and the Parent Company's operations as well as the consolidated cash flows for the financial year 1 May 2023 –30 April 2024 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements" (hereinafter collectively referred to as "the financial statements") section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act. Moreover, Management is responsible for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Independent auditor's report

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Management's review

Business review

The Group's main activities are to develop and sell software and related activities.

Financial review, Group

The financial report for 2023/24 shows a profit of DKK 5,224 thousand against a profit of DKK 9,888 thousand last year, and the balance sheet at 30 April 2024 shows equity of DKK 53.359 thousand.

PDC did not reach the expected 5-15% growth in Turnover. Instead, there was a decline from 136 mio DKK to 134 mio DKK. This is the effect of a huge investment in development of Resource Management solution. The profit before tax declined from 9.8 mio –to 5.2 mio, which was within the expected range. and is considered satisfactory.

The main activities within the key areas of the company includes:

AIRLINES

- ▶ Development and delivery of PDCs integrated flight suite for Airlines Resource Management, including Operations Control, Commercial Schedules Planning and Crew management to airlines. Four more airlines joined the community of international airlines using the PDC Flight Suite.
- ▶ The Automated scheduling engine using Mathematical Optimization and AI technologies is now used adopted several Airline customers.

AIRPORTS

- ▶ PDC SCORE system for Airport Slot Coordination have been delivered to six new customers in Europe, Asia, Middle-east, North America and South America.
- ▶ PDC have extended our Airport Suite with new modules for resource planning. The delivery of the full Airport Suite integrated is new in process for several airports.

RESOURCE MANAGEMENT SYSTEMER

- ▶ Implementation of PDC's work force management and production planning solution to the public and private sectors.
- ▶ PDC have extended the cooperation with one of the largest regions in Denmark.

TECHNOLOGIES

- ▶ Continued focus on Cloud environment, cloud management tools, Cyber Security and Information Security.
- ▶ Continued development AI related tools for planning and scheduling –including Logic Programming and Mathematical Optimization.

Events after the balance sheet date

No events affecting the 2023/24 annual report has occurred after the balance sheet date.

Outlook

The outlook for 2024/2025 is further moderate growth of 5-10% in Turnover and a Profit that is expected to be in the range DKK 6 - 12 million.

Financial review, Parent

The Parent company's objective is as a holding company to hold shares, directly or indirectly. The assessment of the performance within the Parents investments was satisfying and in accordance with expectations. The Parent's income statement for 2023/24 resulted in a profit of DKK 5,079 thousand, compared to a profit of DKK 9,716 thousand in 2022/23. The financial position as of 30 April 2024 showed an equity of DKK 52,738 thousand and total assets of DKK 53,467 thousand, compared to an equity of DKK 50,930 thousand and total assets of DKK 52,907 thousand last year.

With reference to article 86, 4 of the Danish Financial Statements Act, no cash flow statement for the parent has been presented as these are included in the cash flow statement of the Group.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies

The annual report of Prolog Development Center Holding A/S for 2024 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to medium-sized reporting class C entities.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Presentation currency

The financial statements are presented in Danish Kroner (DKK'000).

Control

The consolidated financial statements comprise the Parent Company Prolog Development Center Holding A/S and group entities controlled by Prolog Development Center Holding A/S (control).

Control means the power to exercise decisive influence over a group entity's financial and operating decisions. Moreover, the possibility of yielding a return from the investment is required.

In assessing whether the Parent Company controls an entity, de facto control is also taken into consideration.

The existence of potential voting rights that may currently be exercised or converted into additional voting rights is considered when assessing whether an entity may become empowered to exercise decisive influence over another entity's financial and operating decisions.

Significant influence

Entities over whose financial and operating decisions the Group can exercise significant influence are classified as associates. Significant influence is deemed to exist when the Parent Company holds or controls, directly or indirectly, more than 20% of the voting rights of an entity but does not control it.

The existence of potential voting rights that may currently be exercised or converted into voting rights is considered when assessing whether significant influence exists.

Preparation of consolidated financial statements

The consolidated financial statements are prepared as a consolidation of the Parent Company's and the individual group entities' financial statements, which are prepared according to the Group's accounting policies. On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends as well as realised and unrealised gains on intra-group transactions are eliminated. Unrealised gains on transactions with associates and equity interests are eliminated in proportion to the Group's ownership interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains unless they do not reflect impairment.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies (continued)

The group entities' financial statement items are included 100% in the consolidated financial statements. Non-controlling interests' share of the profit/loss for the year and of the equity of group entities that are not wholly-owned are included in the Group's profit/loss and equity, respectively, but are presented separately.

Acquisitions and disposals of non-controlling interests that are still controlled are recognised directly in equity as a transaction between shareholders.

Equity investments in associates, participating interests and joint ventures are recognised in the consolidated financial statements using the equity method.

Non-controlling interests

On initial recognition, non-controlling interests are measured at the fair value of the non-controlling interests' equity interest.

Goodwill relating to the non-controlling interests' share of the acquiree is recognised.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Foreign group entities

Foreign subsidiaries and associates are considered separate entities. Items in such entities' income statements are translated at an average exchange rate for the month, and balance sheet items are translated at closing rates. Foreign exchange differences arising on translation of the opening equity of foreign subsidiaries to closing rates and on translation of the income statements from average exchange rates to closing rates are taken directly to equity.

Income statement

Revenue

As basis for interpretation regarding revenue recognition, IAS 11 / 18 has been applied.

Income from the sale of goods and finished goods is recognised in revenue at the time of delivery and when the risk passes to the buyer, provided that the income can be made up reliably and is expected to be received. Income from the sale of services is recognised once the outcome of the transaction can be estimated reliably with reference to the stage of completion. Licence income is recognised as revenue at the time of transfer of the risk to the buyer when, in reality, the agreement is comparable with a sale of software licences.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies (continued)

In assessing the reality of the individual agreement on the delivery of licences, the Company's obligations in connection with additional deliverances, term of contract, payment period, interminability of the contract, rights to the licence and other relevant factors are taken into consideration. For sales with a long credit period, the debtor's ability to pay is included in the assessment as to whether the economic benefits connected with the sales transaction will flow to the Company and whether revenue can be measured reliably. Sales with long interest-free credit are discounted and recognised at fair value. The related interest income is recognised over the term of the credit arrangement under net financials.

Other operating income

Other operating income comprise items of a secondary nature relative to the Company's core activities, including gains on the sale of non-current assets.

Other operating expenses

Other external expenses include the year's expenses relating to the Company's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

Profit/loss from equity investments in group entities, associates and equity interests

A proportionate share of the underlying entities' profit/loss after tax is recognised in the income statement according to the equity method. Shares of profit/loss after tax in subsidiaries and associates are presented as separate line items in the income statement. Full elimination of intra-group gains/losses is made for equity investments in subsidiaries. Only proportionate elimination of intra-group gains/losses is made for equity investments in associates.

The proportionate share of the individual subsidiaries' profit/loss after tax after full elimination of internal gains/losses are recognised in the parent company's income statement.

Financial income and expenses

Financial income and expenses are recognised in the income statements at the amounts that concern the financial year. Net financials include interest income and expenses as well as allowances and surcharges under the advance-payment-of-tax scheme, etc.

Tax

The parent company is covered by the Danish rules on mandatory joint taxation of the Group's Danish subsidiaries. Subsidiaries are included in the joint taxation arrangement from the date at which they are included in the consolidated financial statements and up to the date when they are no longer consolidated.

The parent company acts as management company for the joint taxation arrangement and consequently settles all corporate income tax payments with the tax authorities.

On payment of joint taxation contributions, the Danish corporation tax charge is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use the tax losses to reduce their own taxable income.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies (continued)

Tax for the year comprises current income tax, joint taxation contribution and changes in deferred tax for the year due to changes in the tax rate. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts recognised directly in equity is recognised directly in equity.

Balance sheet

Intangible assets

On Goodwill is amortised over the expected economic life of the asset, measured by reference to Management's experience in the individual business segments. Goodwill is amortised on a straight-line basis over the amortisation period, which is 5 years.

Other intangible assets include development projects and other acquired intangible rights, including software licences, distribution rights and development projects.

Other intangible assets are measured at cost less accumulated amortisation and impairment losses.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

Leases

As basis for interpretation regarding recognition and measurement of leases, IAS 17 has been applied.

On initial recognition, leases for assets that transfer substantially all the risks and rewards incident to the ownership to the Company (finance leases) are measured in the balance sheet at the lower of fair value and the present value of the future lease payments. In calculating the net present value, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor. Assets held under finance leases are subsequently accounted for in the same way as the Company's other assets.

The capitalised residual lease liability is recognised in the balance sheet as a liability, and the interest element of the lease payment is recognised in the income statement over the term of the lease.

Investments in subsidiaries and participating interests

On initial recognition, investments in subsidiaries and associates are measured at cost and subsequently at the proportionate share of the entities' net asset values calculated in accordance with the parent company's accounting policies minus or plus any residual value of positive or negative goodwill calculated in accordance with the purchase method of accounting. Subsidiaries and associates with a negative net asset value are measured at DKK 0 (nil), and any amounts owed by such entities are written down by the parent company's share of the net asset value if the amount owed is deemed irrecoverable. If the negative net asset value exceeds the amounts owed, the remaining amount is recognised under provisions if the parent company has a legal or a constructive obligation to cover the entity's deficit. Net revaluations of investments in subsidiaries and associates are transferred to the net revaluation reserve according to the equity method where the carrying amount exceeds the acquisition cost.

On initial recognition, equity investments in subsidiaries and participating interests are measured at cost, i.e. plus transaction costs. The cost is allocated in accordance with the acquisition method; see the accounting policies regarding business combinations.

The cost is adjusted by shares of profit/loss after tax calculated in accordance with the Group's accounting policies less or plus unrealised intra-group gains/losses.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies (continued)

Identified increases in value and goodwill, if any, compared to the underlying entity's net asset value are amortised in accordance with the accounting policies for the assets and liabilities to which they can be attributed. Negative goodwill is recognised in the income statement.

Dividend received is deduced from the carrying amount.

Equity investments in subsidiaries and participating interests measured at net asset value are subject to impairment test requirements if there is any indication of impairment.

Impairment of non-current assets

The carrying amount of intangible assets, property, plant and equipment and investments in subsidiaries and associates is assessed for impairment on an annual basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Receivables

Receivables are measured at amortised cost.

As basis for interpretation regarding provisions for bad debt, IAS 39 has been applied. An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Work in progress for third parties

Service supplies and contract work in progress for third parties are measured at the market value of the work performed less progress billings. The market value is calculated based on the stage of completion at the balance sheet date and the total expected income from the relevant contract. The stage of completion is calculated based on the expenses incurred relative to the expected total expenses relating to the relevant contract.

Where the outcome of contract work in progress cannot be estimated reliably, the market value is measured at the expenses incurred in so far as they are expected to be paid by the purchaser.

Where the total expenses relating to the work in progress are expected to exceed the total market value, the expected loss is recognised as a loss-making agreement under "Provisions" and is expensed in the income statement.

The value of work in progress less progress billings is classified as assets when the selling price exceeds progress billings and as liabilities when progress billings exceed the market value.

Prepayments

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies (continued)

Equity

Net revaluation reserve according to the equity method

The net revaluation reserve according to the equity method includes net revaluations of investments in subsidiaries and associates relative to cost. The reserve can be eliminated in case of losses, realisation of investments or a change in accounting estimates. The reserve cannot be recognised at a negative amount.

Dividends from subsidiaries that are expected to be adopted before approval of the annual report of Prolog Development Center Holding A/S are not tied to the reserve for net revaluation according to the equity method.

Translation reserve

The translation reserve comprises the share of foreign exchange differences arising on translation of financial statements of entities that have a functional currency other than DKK, foreign exchange adjustments of assets and liabilities considered part of the Company's net investments in such entities and foreign exchange adjustments regarding hedging transactions that hedge the Company's net investments in such entities. The reserve is dissolved on the sale of foreign entities or if the conditions for effective hedging no longer exist. When equity investments in subsidiaries and associates in the parent company financial statements are subject to the limitation requirement in the net revaluation reserve according to the equity method, foreign exchange adjustments will be included in this equity reserve instead.

Proposed dividend

Proposed dividend is recognised as a liability at the date when it is adopted at the annual general meeting (declaration date). Dividend expected to be distributed for the year is presented as a separate line item under "Equity".

Income taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

Provisions

Provisions comprise anticipated expenses relating to onerous contracts. Provisions are recognised when the Company has a legal or constructive obligation at the balance sheet date as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions are measured at net realisable value.

Consolidated financial statements and parent company financial statements 1 May – 30 April

Notes to the financial statement

1 Accounting policies (continued)

Other Payables

Other payables are measured at net realisable value.

Lease liabilities

Lease liabilities are measured at the net present value of the remaining lease payments including any guaranteed residual value based on the interest rate implicit in the lease.

Deferred income

Deferred income recognised as a liability comprises payments received concerning income in subsequent financial reporting years.

Cash flow statement

The cash flow statement shows the Company's net cash flows broken down according to operating, investing and financing activities, the year's changes in cash and cash equivalents as well as the cash and cash equivalents at the beginning and the end of the year.

Cash flows from operating activities are calculated as the profit/loss for the year adjusted for non-cash operating items, changes in working capital and paid corporate income tax.

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities and activities and of intangible assets, property, plant and equipment and investments.

Cash flows from financing activities comprise changes in the size or composition of the Company's share capital and related expenses as well as raising of loans, repayment of interest-bearing debt and payment of dividends to shareholders.

Cash and cash equivalents comprise cash, short term bank loans and short-term securities which are readily convertible into cash, and which are subject only to insignificant risks of changes in value.

Financial ratios

The financial ratios stated under "Financial highlights" have been calculated as follows:

Operating profit/loss	Profit/loss before financial items adjusted for other operating income and other operating expenses
Operating margin	$(\text{Operating profit (EBIT)} \times 100) / \text{Revenue}$
Gross margin	$(\text{Gross profit/loss} \times 100) / \text{Revenue}$
Return on asset	$(\text{Profit/loss from operating activities} \times 100) / \text{Average assets}$
Equity ratio	$(\text{Equity excl. non-controlling interests, year-end} \times 100) / \text{Total assets, year-end}$
Return on equity	$(\text{Profit/loss for the year after tax ex. Non-controlling interests} \times 100) / \text{Average equity excl. non-controlling interests}$
