Statement by Management on the annual report

The Board of Directors and the Executive Board have today considered and approved the annual report of Lion Danmark I ApS for the financial year 01.01.2024 - 31.12.2024.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2024 and of the results of their operations and the consolidated cash flows for the financial year 01.01.2024 - 31.12.2024.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Independent auditor's report

To the shareholders of Lion Danmark I ApS

Opinion

We have audited the consolidated financial statements and the parent financial statements of Lion Danmark I ApS for the financial year 01.01.2024 - 31.12.2024, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for the Group as well as the Parent, and the consolidated cash flow statement. The consolidated financial statements and the parent financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2024 and of the results of their operations and the consolidated cash flows for the financial year 01.01.2024 - 31.12.2024 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor’s responsibilities for the audit of the consolidated financial statements and the parent financial statements" section of this auditor’s report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the consolidated financial statements and the parent financial statements

Management is responsible for the preparation of consolidated financial statements and parent financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent financial statements, Management is responsible for assessing the Group's and the Entity’s ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in

Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Entity’s internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management’s use of the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Entity’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements and the parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group and the Entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements and the parent financial statements, including the disclosures in the notes, and whether the consolidated financial statements and the parent financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated financial statements and the parent financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the parent financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the consolidated financial statements and the parent financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required by relevant law and regulations.

Based on the work we have performed, we conclude that the management commentary is in accordance with the consolidated financial statements and the parent financial statements and has been prepared in accordance with the requirements in the relevant law and regulations. We did not identify any material misstatement of the management commentary.

Balance sheet total

EBITDA adjusted: Operating profit + depreciation and amortization excl. other operating expenses

Primary activities

The Group provides office equipment, office technology, furniture and accessories via web sales throughout Denmark and Sweden.

Development in activities and finances

The Group's revenue in 2024 amounts to DKK 1,038 million, which corresponds to an increase of 5.4% compared to the revenue in 2023, which is in line with expectations for 2024 communicated in the annual report 2023.

Earnings Before Interest, Taxes, Depreciation and Amortisation excl. other operating expenses (EBITDA adjusted) amounted to DKK 83,2 million compared to DKK 93,3 million in 2023, which is below expectations for 2024 communicated in the annual report 2023 due to challenging market conditions inflation, higher freight prices etc.

Result after tax amounted to DKK 28,9 million compared to DKK 38,5 million in 2023.

Profit/loss for the year in relation to expected developments

In a year with challenging market conditions (inflation, higher freight prices etc.) the profit of the year is considered satisfactory.

Outlook

The Group performance is among other things affected by the general macroeconomic conditions incl. development in private, public and B2B consumption, which makes expectations for 2025 for development in revenue and net result after tax difficult.

The Group is not able to quantify expectations for 2025 substantiated by specific percentage on development in revenue and net result after tax at this time, however the Group expects for 2025 an increase in revenue and net result after tax.

Statutory report on corporate social responsibility

The Group has an ongoing focus on its CSR policy including clear visions on environmental and climate protection and human rights. The Group has identified the following risks as the most relevant based on our business model:

Human rights:
Risk of not providing equal opportunity disregarding sex, gender and religion towards employees and business partners. If the risk materializes, this could impact our reputation and our ability to attract and retain employees. The leaders and managers follow a management codex, which specifies that all employees must be treated equally by treating them differently. They must also understand their employees, maintain a good dialogue, and take the lead towards the desired behavior of inclusion and good cooperation.

Human rights matters:
Our policy is to treat customers, suppliers, employees and all other business partners professionally, with respect and with a high level of ethical standards. This means also that we accept no disrespect for rules, laws and agreements here under also corruption, and that potential breaks will not be accepted. We have implemented strong business controls and standards, which should also serve to prevent any misconduct. We have not experienced any incidents of misconduct in 2024. We will keep paying high attention to the Human rights area in 2025 as well.

The Group pays great attention to creating a strong and motivating company culture. We believe that strong culture and strong leadership are the foundation for securing continued growth in our company. In this perspective, we work with various objectives, which support employee growth and development and, at the same time, create a fun and interesting workplace. We believe that the continuous efforts in 2024 in this area have resulted in the Group maintaining its position as an attractive workplace.

Social/employee:
Risk of not behaving in an ethical manner in general across the entire organization,
risk of not putting enough effort into engaging with the local community, and risk of not providing proper work conditions for the employees of the company. If the risk materializes, this could impact our ability to attract and retain employees. Great focus was placed on employees' well-being in 2024. Two surveys covering employee well-being were carried out, and improvements were made based on the results. A workplace assessment was carried out, and improvements were made according to the results of the assessment. During the year, several social events were held, where the focus was on joy and cooperation. Lomax is proud to employ many local employees, and to sponsor local charities.

Social/employee matters:
The Group also works very focused with social- and employee matters. Specific objectives have been defined in a number of relevant areas. It is our company policy to secure diversity in aspects such as gender, education, and work experience. As part of the yearly strategy planning, the constitution of the board- and management layers are discussed. This aspect is also an integrated part of both the recruitment processes and the daily work. We believe in equal opportunity disregarding sex, gender and religion etc., and integrate this belief in all aspects of our daily business. We will keep paying high attention to Social/Employee matters in 2025 as well.

Environment:
Risk of not having sufficient green alternatives in product assortment, and risk of not improving satisfactory on carbon footprint on the company premises including warehouse facilities. If the risk materializes, this may impact the local environment. Lomax has produced a climate report for each year since 2020 and focuses on lowering the greenhouse gas emissions connected to the company´s operations. We have entered dialogue with our suppliers about products that affect the climate and environment to a lesser degree, and we push our customers to buy these products.

Going forward, Lomax strives to provide our customers with better, more durable products which have a lower effect on the environment and climate. We work with our freight forwarders to maximize the efficiency of deliveries, in a more sustainable way. All in all, our goal is to secure a collaboration with our suppliers to promote a more sustainable everyday life throughout our value chain.

Environment matters:
The overall strategy is year by year to take various actions, which will have positive effects on climate and environment in general. A good example of which is the fact that between 2022 and 2024, the amount of waste generated decreased by 30%, off which almost 80% ends up being recycled. Another example is the change in packaging materials used towards 100% recycled materials, and recyclable materials.
In 2024 and forward we intend to continue close dialogue with our suppliers and customers to promote green products even further.

Anti-corruption:
Risk of not being compliant with anti-corruption rules when having transactions with partners in various countries. If the risk materializes, this could impact our reputation and lead to criticism from stakeholders.

Transactions with external partners abroad consist of purchases from suppliers. The most significant risks are assessed to be associated with suppliers abroad. The company's purchasing department is subject to special guidelines which aim to reduce inappropriate behavior in connection with purchases from external suppliers abroad.

The Group takes the CSR policy very seriously and has clear ambitions and strategy for the efforts within. The concrete efforts and strategy of the Group are explained in detail below.

Anti-corruption matters:
The Group pay high attention to securing high ethical standards across the entire organization. This also implies a strong focus on always dealing at arms lengths principles and staying within the boundaries of laws and regulations in all countries which we have transactions within. In areas such as bribes, fraud and money laundering there is a zero-acceptance policy within the Group. The entire organization is aware the company´s policy in this area. We have designed our business procedures to support the overall strategy in the above-mentioned areas. The Group evaluates the results of the efforts on an on-going basis. During 2024, Lomax Partnership Policy has been sent to the company's suppliers. The policy sets demand for labor rights, human rights, the environment and anti-corruption in accordance with the UN's Global Compact 10 principles. During 2024 we have not experienced any incidents of corruption. We will continue our focus on implementing various improvements year by year, and evaluation of results will continuously be made during strategy/management meetings.

CSR-report:
The Group has decided to increase the focus on CSR even further. Therefore, a detailed CSR-report have been prepared.

Statutory report on data ethics policy

Introduction
Integrity and transparency are two key factors at Lomax A/S. We strive to comply with all requirements, including section 99d of the Danish Financial Statements Act governing data ethics. However, our attention is focused on the fact that legislation does not necessarily always follow technological developments. As a company, we have a responsibility to act ethically in data collection and data use, both in our customers' and own interests. The data ethics policy aims to account for the data collection and data use of Lomax A/S. The data ethics policy is supplemented by Lomax's personal data policy, which is available on Lomax.dk and to all Lomax employees.

Data overview
Lomax uses private customer and business customer information to manage marketing, invoicing, tendering, etc, including names, addresses and email addresses. Lomax also uses staff information of a more personal nature for recruitment, payment of salaries, wages, and similar payments. Lomax collects data directly from customers, business partners and staff. It is important to point out that Lomax does not own the stored customer data.

Data storage
Data is stored on servers in EU or in countries with an agreement with the EU. Some personal data are handled by a third party (data processor) who keeps and processes personal data on behalf of Lomax A/S following this

data ethics policy and the applicable data protection legislation. Data is stored for active customer relations as long as necessary to provide the best service. If the customer relationship is interrupted, data is kept for up to five years, depending on the nature of the data. For example, email addresses used for marketing are deleted or automatically retained based on customer behavior.

Customers can request insight into stored personal data or to have their personal data deleted at any time. According to other legislation (the Danish Bookkeeping Act and the Danish Anti-Money Laundering Act), all transactional data, including contact and company information, is kept for five years.

Use of data

- For logging on to the website. By default, e-mails are used for logging in. Other information, like CVR number or phone number can be used to search for addresses etc.
- For personalizing customer experience in emails and on the website through personalized recommendations based on purchase history.
- For improving www.lomax.dk and marketing material from Lomax A/S.
- For serving customers better when contacting customer service.
- For managing competitions, customer surveys, etc.
- For being able to handle customer orders as quickly as possible.
- For delivering goods.
- For gathering product and Trustpilot reviews.
- For following-up on inquiries.
- For general marketing.
- For recruitment and employment.

Lomax does not purchase or resell customer data or any other data to third parties.

Data processing

Lomax A/S collects only the personal data necessary to provide a service or deliver a product, market services and products, or process queries.

Lomax A/S does not purchase personal data from third parties.

Lomax A/S uses Billwerk for handling online payment card transactions and does not store details about payment cards. However, by invoice payment, invoicing and banking details are kept following applicable laws in this area, including the Danish Anti-Money Laundering Act and the Danish Bookkeeping Act.

The Lomax website is continuously penetration tested and scanned for security breaches and weaknesses to exclude potential data Leaks as quickly as possible and thereby make our website as secure as possible.

Lomax is very serious about Cybersecurity. Lomax is therefore having incident handling routines ready in case of security breaches or data leaks. Lomax is thereby ensuring that the data protection act is being followed.

These handling routines include identifying the extent of the damage, notifying affected customers and users, notifying the Danish Data Protection Agency, and actions trying to contain the extent of the damage.

If Lomax identifies a data leak from Lomax A/S or its external partners, all affected, including the customers, will be informed within 72 hours. If you suspect that data has been leaked from Lomax A/S, you can always contact Lomax for further clarification.

New technologies
In connection with the purchase and implementation of new technologies, the head of IT Development at Lomax will be involved at all times to ensure that IT security is as good as possible and complies with other Lomax codes of practice. Similarly, the GDPR Advisory board will be involved, when implementing new systems containing personal data, to ensure data compliance.

Responsibility and follow-up
This policy applies to all executives and employees at Lomax. Executives have a special responsibility to lead the way as a good example and ensure that all employees know and comply with the policy. In situations requiring extraordinary focus on data ethics, the head of IT Development and the GDPR Advisory board at Lomax will be available. Lomax prioritizes employees to be well-informed about data ethics, data security, and proper handling of personal data. Lomax is running awareness campaigns for newly hired personnel and refreshers for others.

2024 results
In 2024, we continued our internal focus on educating and informing employees about current rules and processes. Employees are also informed on an ongoing basis when there is a need to adjust behavior and processes.

In 2024, we had two minor data breaches, which were too minor to be reported to the Danish Data Protection Agency.

Events after the balance sheet date
No events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

A specification of investments in subsidiaries is evident from the notes to the consolidated financial statements.

6 Contingent liabilities

The Entity serves as the administration company in a Danish joint taxation arrangement. According to the joint taxation provisions of the Danish Corporation Tax Act, the Entity is therefore liable for income taxes etc for the jointly taxed entities, and for obligations, if any, relating to the withholding of tax on interest, royalties and dividend for these entities.

7 Assets charged and collateral

The Company has pledged the Company's investments in group enterprises, and receivables as security for the bank loan agreement for a total amount of 80.383 thousand.
Furthermore, the Company has issued a Negative Pledged in favor of the bank loan agreement.

Accounting policies

Reporting class

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large).

The accounting policies applied to these consolidated financial statements and parent financial statements are consistent with those applied last year.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Consolidated financial statements

The consolidated financial statements comprise the Parent and the group enterprises (subsidiaries) that are controlled by the Parent. Control is achieved by the Parent, either directly or indirectly, holding more than 50% of the voting rights or in any other way possibly or actually exercising controlling influence. Enterprises in which the Group, directly or indirectly, holds between 20% and 50% of the voting rights and exercises significant, but not controlling influence, are regarded as associates.

Basis of consolidation

The consolidated financial statements are prepared on the basis of the financial statements of the Parent and its subsidiaries. The consolidated financial statements are prepared by combining uniform items. On consolidation, intra-group income and expenses, intra-group accounts and dividends as well as profits and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation have been prepared applying the Group's accounting policies.

Subsidiaries' financial statement items are recognised in full in the consolidated financial statements. Minority interests' pro rata shares of the profit/loss and the net assets are disclosed as separate items in Management's proposal for the distribution of net profit/loss and equity, respectively.

Investments in subsidiaries are offset at the pro rata share of such subsidiaries' net assets at the takeover date, with net assets having been calculated at fair value.

Business combinations

Newly acquired or newly established enterprises are recognised in the consolidated financial statements from the time of acquiring or establishing such enterprises. Divested or wound-up enterprises are recognised in the consolidated income statement up to the time of their divestment or winding-up.

Profits or losses from divestment of equity investments

Profits or losses from divestment or winding-up of subsidiaries are calculated as the difference between selling price or settlement price and the carrying amount of the net assets at the time of divestment or winding-up, inclusive of non-amortised goodwill and estimated divestment or winding-up expenses.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date, or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses.

Income statement

Revenue

Revenue from sales of goods is recognised in the income statement when delivery and transfer of risk has been made and when it can be measured reliably. Revenue is recognised exclusive of VAT and net of discounts relating to sales.

Own work capitalised
Own work capitalised comprises staff costs and other costs incurred in the financial year and recognised in cost for proprietary intangible assets.

Other operating income
Other operating income comprises income of a secondary nature as viewed in relation to the Entity's primary activities.

Cost of sales
Cost of sales comprises cost of goods, freight, inventory write-downs, taxes and other delivery costs.

Other external expenses
Other external expenses include expenses relating to indirect production costs and expenses for premises, sales and distribution as well as office expenses, etc.

Staff costs
Staff costs comprise salaries and wages as well as social security contributions, pension contributions, etc for Group staff.

Settlement of warrant incentive program issued to management team is expensed directly through equity.

Depreciation, amortisation and impairment losses
Depreciation, amortisation and impairment losses relating to property, plant and equipment and intangible assets comprise depreciation, amortisation and impairment losses for the financial year, calculated on the basis of the residual values and useful lives of the individual assets and impairment testing as well as gains and losses from the sale of intangible assets as well as property, plant and equipment.

Other operating expenses
Other operating expenses comprise expenses of a secondary nature as viewed in relation to the Group's primary activities.

Income from investments in group enterprises
Income from investments in group enterprises comprises the pro rata share of the individual enterprises' profit/loss after full elimination of internal profits or losses.

Other financial income
Other financial income comprises interest income on receivables from group enterprises, foreign currency transactions, amortisation of financial assets etc.

Other financial expenses
Other financial expenses comprise interest expenses, including interest expenses on payables to group enterprises, foreign currency transactions, amortisation of financial liabilities etc.

Tax on profit/loss for the year
Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity. The Parent is jointly taxed with all Danish subsidiaries. The current Danish income tax is allocated among the jointly taxed entities proportionally to their taxable income (full allocation with a refund concerning tax losses).

Balance sheet

Goodwill

Goodwill is amortised straight-line over its estimated useful life, which is fixed based on the experience gained by Management for each business area. The amortisation period ranges from 5 - 20 years for strategically acquired enterprises with a strong market position and a long-term earnings profile if the longer amortisation period is considered to give a better reflection of the benefit from the relevant resources.
Goodwill is written down to the lower of recoverable amount and carrying amount.

Intellectual property rights etc.

Intellectual property rights etc. comprise development projects completed and in progresss which relate to the development of the Entity's new homepage and new external storage setup.

Development projects on clearly defined and identifiable products and processes, for which the technical rate of utilisation, adequate resources and a potential future market or development opportunity in the enterprise can be established, and where the intention is to manufacture, market or apply the product or process in question, are recognised as intangible assets. Other development costs are recognised as costs in the income statement as incurred. When recognising development projects as intangible assets, an amount equalling the costs incurred less deferred tax is taken to equity in the reserve for development costs that is reduced as the development projects are amortised and written down.

The cost of development projects comprises costs such as salaries and amortisation that are directly and indirectly attributable to the development projects.

Completed development projects are amortised on a straight-line basis using their estimated useful lives which are determined based on a specific assessment of each development project. If the useful life cannot be estimated reliably, it is fixed at 10 years.

Intellectual property rights acquired are measured at cost less accumulated amortisation. Patents are amortised on a straight-line basis over their remaining duration, and licences are amortised on a straight-line basis over the term of the agreement.

Intellectual property rights etc. are written down to the lower of recoverable amount and carrying amount.

Property, plant and equipment

Tangible assets are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation is based on cost less the expected residual value based on the useful lives of the assets.

The depreciation is calculated on a straight-line basis over the expected useful lives of the assets, which are:

	Useful life
Buildings	3-5 years
Other fixtures and fittings, tools and equipment	5 years
Leasehold improvements	2 years

Assets with a cost less than DKK 13,500 are expensed in the year of the acquisition.

Profit or loss from sale of property, plant and equipment is measured as the difference between the actual sales price less sales cost and the booked value. Profit or loss from sale of property, plant and equipment is recognised in the income statement under depreciation, amortisation and impairment losses.

Investments in group enterprises
The item "Investments in group enterprises" in the balance sheet includes the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addtion of any remaining value of positive differences (goodwill) and deduction of any remaining value of negative differences (negative goodwill).

The total net revaluation of investments in subsidiaries, which is structured as ApS, A/S or similar, is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the parent company and adjusted for other equity movements in subsidiaries.

Upon distribution of profit or loss, net revaluation of investments in group enterprises is transferred to reserve for net revaluation according to the equity method in equity.

Subsidiaries with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the parent company to cover the negative balance of the enterprise will be recognised in provisions. If the carrying amount of the negative equity value exceeds receivables, the remaining amount is recognised under provisions, to the extent that the parent company has a legal or actual obligation to cover the subsidiaries' obligations.

Inventories
Inventories are measured at the lower of cost using the FIFO method. Whenever cost exceeds net realisable value, cost is adjusted to the net realisable value.

The cost of goods for resale includes cost and other delivery expenses.
The net realisable value of inventories is calculated as the amount expected to be generated by sale in the process of normal operations with deduction of selling expenses and costs of completion. The net realisable value is determined allowing for marketability, obsolescence and development in the expected sales price.

Cash pool
The Company is part of a cash pool scheme with other companies within the Group. Consequently, a considerable portion of the Company's bank deposits and debt is included in receivables from group enterprises.

Receivables
Receivables are measured at amortised cost, usually equalling nominal value, less writedowns for bad and doubtful debts.

Prepayments
Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Joint taxation contributions payable or receivable
Current joint taxation contributions payable or receivable are recognised in the balance sheet, stated as tax computed on this year's taxable income, adjusted for prepaid tax. For tax losses, joint taxation contributions receivable are only recognised if such losses are expected to be used under the joint taxation arrangement.

Prepayments
Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Cash
Cash comprises cash in hand and bank deposits.

Dividend
Extraordinary dividend adopted in the financial year is recognised directly in equity when distributed and disclosed as a separate item in Management's
proposal for distribution of profit/loss.

Deferred tax
Deferred tax is recognised on all temporary differences between the carrying amount and the tax-based value of assets and liabilities, for which the tax-based value is calculated based on the planned use of each asset.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets.

Operating leases
Lease payments on operating leases are recognised on a straight-line basis in the income statement over the term of the lease.

Other financial liabilities
Fixed-interest loans, such as mortgage loans and loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Mortgage loans are measured at amortised cost, which for cash loans corresponds to the remaining loan. Amortised cost of debenture loans corresponds to the remaining loan calculated as the underlying cash value of the loan at the date of raising the loan adjusted for depreciation of the price adjustment of the loan made over the term of the loan at the date of raising the loan.

Cash flow statement
The cash flow statement shows cash flows from operating, investing and financing activities as well as cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are presented using the indirect method and calculated as the operating profit/loss adjusted for non-cash operating items, working capital changes and income taxes paid. Cash flows from investing activities comprise payments in connection with acquisition of enterprises, activities and fixed asset investments as well as purchase, development, improvement and sale, etc of intangible assets and

property, plant and equipment, including acquisition of assets held under finance leases.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and related costs as well as the raising of loans, and instalments on interest-bearing debt. Cash and cash equivalents comprise cash and short-term securities with an insignificant price risk less shortterm bank debt.
