Management's Statement

Today the Board of Directors and Executive Board have discussed and approved the Annual Report of Watson-Marlow Flexicon A/S for the financial year 1 January - 31 December 2024.

The Annual Report is presented in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2024 and of the results of the Company's operations and cash flows for the financial year 1 January - 31 December 2024.

The Management Commentary includes in our opinion a fair presentation of the matters dealt with in the Commentary.

We recommend the Annual Report be approved at the Annual General Meeting.

Independent Auditor's Report

To the Shareholders of Watson-Marlow Flexicon A/S

Opinion

We have audited the Financial Statements of Watson-Marlow Flexicon A/S for the financial year 1 January - 31 December 2024, which comprise income statement, Balance Sheet, statement of changes in equity, cash flows, notes and a summary of significant accounting policies. The Financial Statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2024 and of the results of the Company's operations and cash flows for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such Internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

Independent Auditor's Report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.*
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.*
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.*
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management Commentary

Management is responsible for Management Commentary.

Our opinion on the Financial Statements does not cover Management Commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management Commentary and, in doing so, consider whether Management Commentary is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management Commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management Commentary is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of Management Commentary.

Management Commentary

Principal activities

As in prior years, the Company's primary activities consist of design, production and sale of filling and encapsulation machines.

Development in activities and financial position

The Gross Profit for the financial year amounts to DKK '000 56,670 against DKK '000 60,705 in the previous year, corresponding to a decrease of 7%. Profit before Tax amounts to DKK '000 15,358 against DKK '000 21,348 last year.

The Company has been affected by the continued low demand from the Biopharm sector, following strong demand during the Covid-19 pandemic. Despite early signs of improvement in Biopharm demand, the Company does not expect a material recovery in sales in 2025.

The Management considers the Profit for the year as satisfactory in consideration of the difficult market conditions.

Profit/loss for the year compared to the expected development

The development in volume and profit for the year is below the Company's expectations, as volume and profit for the year in line with 2023 was expected.

Significant events after the end of the financial year

No events have occurred after the end of the financial year of material importance for the company's financial position.

Special risks

Operational risks

The Company's most significant operational risks are attached to the ability to maintain a strong position on its key markets and to be on the forefront of the technological development within the Company's main products.

Financial risks

The Company is through its operations, investments and financing only to a certain extent exposed to changes in foreign exchange rates and changes in the market rate of interest.

Foreign exchanges risks

The Company's revenue is almost entirely in DKK or EUR which significantly reduces its exchange risks. However, a part of the cost of goods is in GBP and USD so the Company is exposed to significant changes in these currencies.

Future expectations

The Company expects Gross Profit for 2025 in the range of DKK 55-60 mio. and profit for the year 2025 in the range of DKK 12-16 mio.

Environmental situation

The Company is certified according to ISO 9001:2015, ISO 14001:2015 and ISO 45001. The Company is working determinedly to improve the environmental effort. This is done within the framework of the Spirax Group's overall targets.

Name and registered office address of the Parent preparing consolidated financial statements for the smallest group:

Spirax-Sarco Engineering Plc, Charlton House, Cheltenham, Gloucestershire, GL53 8ER, United Kingdom, www.spiraxsarcoengineering.com.

Accounting Policies

The Annual Report of Watson-Marlow Flexicon A/S for 2024 has been presented in accordance with the provisions of the Danish medium-size Financial Statements Act for enterprises in reporting class C .

The Annual Report is prepared consistently with the accounting principles applied last year.

Income Statement

Gross Profit

Gross profit is calculated with reference to Section 32 of the Danish Financial Statements Act as a summary of net revenue, other operating income and other external costs.

Net revenue

Net revenue from sale of merchandise and finished goods is recognised in the Income Statement if supply and risk transfer to purchaser has taken place before the end of the year and if the income can be measured reliably and is expected to be received. Net revenue is recognised exclusive of VAT, duties and less discounts related to the sale.

Production costs

Production costs comprise costs, including wages and salaries and write-off, incurred to achieve the net revenue for the year. Commercial enterprises recognise cost of sales, and the manufacturing enterprises recognise production costs equal to the revenue for the year, including direct and indirect costs of raw materials and consumables, wages and salaries, rent and leasing and depreciation of production plant.

Amortisation of capitalised development and research costs and the development costs that do not fulfil the criteria for capitalisation are also recognised in production costs.

Write-down is recognised in connection with expected losses on project contracts.

Distribution costs

The costs incurred for distribution of goods sold during the year and for sales campaigns carried out during the year are recognised in distribution costs. The costs of the sales personnel, advertising and exhibition costs and amortisation are also recognised in distribution costs.

Administrative expenses

Administrative expenses recognise costs incurred during the year regarding management and administration of the group, inclusive of costs relating to the administrative staff, executives, office premises, office expenses etc and related amortisation.

Financial income and expenses

Financial income and expenses include interest income and expenses, financial expenses of finance leases, realised and unrealised gains and losses arising from investments in financial assets, debt and transactions in foreign currencies, amortisation of financial assets and liabilities as well as charges and allowances under the tax-on-account scheme etc. Financial income and expenses are recognised in the income statement by the amounts that relate to the financial year.

Accounting Policies

Tax

The tax for the year, which consists of the current tax for the year and changes in deferred tax, is recognised in the income statement by the portion that may be attributed to the profit for the year, and is recognised directly in the equity by the portion that may be attributed to entries directly to the equity.

Balance Sheet

Intangible fixed assets

Acquired goodwill is measured at cost less accumulated amortisation. Goodwill is amortised on a straight-line basis over the expected useful life which is estimated to 10 years. The period of amortisation is determined based on an assessment of the acquired company's position in the market and earnings profile, and the industry-specific conditions.

Profit or loss from sale of intangible fixed assets is calculated at the difference between the sales price and the carrying amount at the time of the sale. Profit and loss are recognised in the Income Statement under other operating income or other operating expenses.

Tangible fixed assets

Production plant and machinery, other plants, fixtures and equipment are measured at cost less accumulated depreciation and write-down.

The depreciation base is cost less estimated residual value after end of useful life.

The cost includes the acquisition price and costs incurred directly in connection with the acquisition until the time when the asset is ready to be used. As regards self-manufactured assets, the cost price includes cost of materials, components, subcontractors, direct payroll and indirect production costs.

Straight-line depreciation is provided on the basis of an assessment of the expected useful lives of the assets and their residual value:

	Useful life	Useful life
Production plant and machinery		2-8 years
Other plant, fixtures and equipment		3-5 years
Leasehold improvements		5 years

Estimated useful lives and residual values are reassessed annually.

Profit or loss on disposal of tangible fixed assets is stated as the difference between the sales price less selling costs and the carrying amount at the time of sale. Profit or loss is recognised in the income statement as other operating income or other operating expenses.

Accounting Policies

Financial non-current assets

Impairment of fixed assets

The carrying amount of intangible and tangible fixed assets together with investments, which are not measured at fair value, are valued on an annual basis for indications of impairment other than that reflected by amortisation and depreciation.

In the event of impairment indications, an impairment test is made for each asset or group of assets, respectively. If the net realisable value is lower than the carrying amount, write-down is provided to the lower value.

The recoverable amount is calculated at the higher of net selling price and capital value. The capital value is determined as the fair value of the expected net cash flows from the use of the asset or group of assets and the expected net cash flows from sale of the asset or group of assets after the end of its useful life.

Inventories

Inventories are measured at cost using the FIFO-principle. If the net realisable value is lower than cost, write-down is provided to the lower value.

The cost of merchandise as well as raw materials and consumables is calculated at acquisition price with addition of transportation and similar costs.

The cost of finished goods and work in progress includes cost of raw materials, consumables, direct payroll cost and indirect production cost. Indirect production costs include indirect materials and payroll and maintenance and depreciation of the machines, factory buildings and equipment used in the production process, cost of factory administration and management and capitalised development costs relating to the products.

The net realisable value of inventories is stated at sales price less completion costs and costs incurred to execute the sale and is determined with due regard to marketability, obsolescence and development in expected sales price.

Receivables

Receivables are measured at amortised cost which usually corresponds to nominal value. The value is reduced by write-down to meet expected losses.

Write-off is performed to provide for losses when an objective indication has been assessed to have incurred that a receivable or a portfolio of receivables are impaired. If there is an objective indication that an individual receivable is impaired, the write-off is performed at individual level.

Receivables for which there are no objective indication of impairment at individual level are assessed at portfolio level for objective indication of impairment. The portfolios are primarily based on the debtors' registered office and credit rating in accordance with the Company's policy for credit risk management. The objective indicators, which are applied for portfolios, are determined based on the historical loss experiences.

Write-off is determined as the difference between the carrying amount of receivables and the present value of the expected cash flows, including realisable value of any received collaterals. The effective interest rate is used as discount rate for the single receivable or portfolio.

Accruals, assets

Accruals recognised as assets include costs incurred relating to the subsequent financial year.

Other provisions for liabilities

Other provisions for liabilities include the expected cost of warranty commitments and deferred tax.

Accounting Policies

Warranty commitments include liabilities for improvement of work within the warranty period. The provision for liabilities is measured and recognised on the basis of experience with warranty work.

When it is likely that the total costs will exceed the total income on the contract work in progress, a provision is made for the total loss that is anticipated for the contract. The provision is recognised as a cost under production costs.

Tax payable and deferred tax

Current tax liabilities and receivable current tax are recognised in the balance sheet as the calculated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and taxes paid on account.

The Company is subject to joint taxation with Danish group companies. The current corporation tax is distributed among the joint taxable companies in proportion to their taxable income and with full allocation and refund related to tax losses. The joint taxable companies are included in the on account tax scheme. Joint taxation contributions receivable and payable are recognised in the Balance Sheet under current assets and liabilities, respectively.

Deferred tax is measured on the temporary differences between the carrying amount and the tax value of assets and liabilities.

Deferred tax assets, including the tax value of tax loss carry-forwards, are measured at the expected realisable value of the asset, either by set-off against tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that under the legislation in force on the balance sheet date would be applicable when the deferred tax is expected to crystallise as current tax. Any changes in the deferred tax resulting from changes in tax rates, are recognised in the income statement, except from items recognised directly in equity.

Liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

Foreign currency translation

Transactions in foreign currencies are translated at the rate of exchange on the transaction date. Exchange differences arising between the rate on the transaction date and the rate on the payment date are recognised in the income statement as a financial income or expense.

Fixed assets acquired in foreign currencies are translated at the rate of exchange on the transaction date.

Cash Flow Statement

The cash flow statement shows the company's cash flows for the year for operating activities, investing activities and financing activities in the year, the change in cash and cash equivalents of the year and cash and cash equivalents at beginning and end of the year.

Cash flows from operating activities:

Cash flows from operating activities are computed as the results for the year adjusted for non-cash operating items, changes in net working capital and corporation tax paid.

Cash flows from investing activities:

Cash flows from investing activities include payments in connection with purchase and sale of intangible and tangible fixed asset and fixed asset investments.

Accounting Policies

Cash flows from financing activities:

Cash flows from financing activities include changes in the size or composition of share capital and related costs, and borrowings and repayment of interest-bearing debt and payment of dividend to shareholders.

Cash and cash equivalents:

Cash and cash equivalents include bank overdraft and cash in hand.
